### Overview

#### Proposal
The Planning & Development Services Department, of the City Planning and Community Development Division, has received an application to develop a 5-storey, 90-unit residential building, with daycare, at 535 Douglas Avenue (Subject Property). This proposed development will require:

- Rezoning from Institutional Zone to Residential High-Rise Zone
- Discretionary Use procedure, as the proposed building:
  - exceeds 11 metres in height
  - includes a day care operation

Additional features associated with the proposed development include indoor parking and parking stall numbers that exceed the City’s minimum requirement.

**Attached, are graphic representations of the proposed development**

#### Background
The Subject Property, owned by the Regina Christian School Association, is located within the Boothill Neighbourhood, on lands that previously accommodated school purposes, but are now considered, by the school authorities, as surplus. The intent of the Applicant is to have the Subject Property subdivided and to occupy a new .6 hectare parcel fronting 20th Avenue.

The existing Institutional Zone does not allow for residential land-use; therefore, a rezoning to the Residential High-Rise Zone (RH Zone) is required. Please note that the maximum allowable height in the RH Zone is 20 metres and the height of the proposed development is 18 metres.

The City is not aware of any intent to transition the existing Du Parc Ecole School, or open space directly west of this school, to a different land-use.

### Additional Information

#### Process
These applications require review by the Regina Planning Commission (RPC) and approval by Regina City Council (Council) – both the RPC and Council meetings are public forums where interested parties may attend and provide comments. If you wish to be kept informed about the date and time of these meetings, be sure to give the City your contact information.

**Please refer to the Application Review Process on back of page**
